

# ANAZODO CHIJOKE U. CHIJOKE

## Mobile App Developer

Anambra, Nigeria | +234-708-192-9198 | chijiokeanazodo2020@gmail.com | linkedin.com/in/chijiokeanazodo

### CAREER SUMMARY:

---

Ambitious and innovative Flutter Developer with 2+ years of experience building modern, fluid, and highly engaging cross-platform applications. Skilled in transforming ideas into polished mobile experiences, experimenting with new UI/UX patterns, and developing clean, scalable architecture.

Proficient in Flutter, Dart, state management (Riverpod, Bloc), Firebase, Supabase, animations, and responsive design. Driven by creativity and curiosity not just writing code but pushing boundaries, proposing solutions, and crafting user-centric digital experiences. Fully comfortable working in fast-paced remote startup environments.

### WORK EXPERIENCE

---

#### Nnewi Tech Faculty | Flutter Intern | August, 2024

- Designed and developed Flutter apps for Android and iOS with responsive UI/UX.
- Integrated REST APIs, Supabase, and Firebase for secure and real-time data handling.
- Implemented state management using Riverpod and Bloc following MVC/MVVM patterns.
- Participated in code reviews, debugging, and testing to maintain app performance.
- Collaborated with designers and backend teams to deliver seamless functionality.

#### ICE Innovation Hub | Mobile App Developer Intern | September, 2025

- Developed Flutter apps with Firebase Auth, Firestore, push notifications, and cloud services.
- Built reusable code and libraries for scalable app development.
- Conducted debugging, testing, and CI/CD deployment via GitHub Actions.
- Assisted interns in understanding Flutter best practices and version control workflows.

### RELEVANT PROJECTS:

---

#### WellPoint – Health Access App | Participated in Anambra Startup Weekend

- Built a digital healthcare access app connecting users with medical services across Anambra.
- Delivered smooth cross-platform performance using Flutter and real-time data handling. Built a Flutter healthcare app connecting patients to medical services.
- Integrated authentication, real-time data access, and REST APIs for healthcare workflows.
- Designed for Android, iOS, and web using responsive layouts.

#### GameSpot – Gaming Discovery App

- Created an app for gamers to discover and explore new games with dynamic search functionality.
- Designed interactive UI and efficient navigation for improved user experience.

#### Fashion Showcase App

- Developed an app to showcase fashion collections with custom widgets and image optimization.
- Ensured consistent, responsive design across Android & iOS.

### EDUCATION:

---

Bachelor of Computer Science – Software Engineering

Admiralty University, Nigeria | 2022 – 2026

### SKILLS:

---

- Languages & Frameworks: Flutter, Dart, Firebase, Supabase, REST APIs, GraphQL
- State Management: Riverpod, Bloc, Provider
- Architecture & Design: MVC, MVVM, Clean Architecture, Responsive UI/UX
- Mobile Development: Android & iOS Deployment, Push Notifications, App Store/Play Store Publishing
- Testing & DevOps: Unit/Widget Testing, CI/CD Basics, Git, GitHub Actions
- Soft Skills: Collaboration, Problem Solving, Code Review Participation, Agile Development
- Tools: Android Studio, VS Code, Figma, Postman
